Thread: [Dedicated Servers, VPS and Domains. Stable and Reliable](#)

G-HOSTING - September 2, 2026, 12:44 pm

Hello.

While many offer doubtful "bulletproof" servers, we offer stable and reliable solutions for your business in the form of dedicated and VPS servers, as well as offshore domain names, guaranteeing a certain level of loyalty.

All our servers operate on a dedicated 1GB bandwidth, guaranteeing a stable connection and high speed without lag.

No overselling for VPS, even the minimum configurations are fast!

A wide range of configurations to choose from: various CPU options, including Intel and AMD, servers for large-scale storage, servers with GPUs for large-scale computing, additional IP addresses, servers for VPN and other solutions to suit your needs.

We currently offer several server locations to choose from:

- Germany
- Finland
- France
- Poland
- Australia
- Singapore
- United Kingdom
- United States
- Latvia
- Sweden

Example pricing for dedicated servers: (These configurations are examples, as per forum rules. We have many more options available, so we can find the perfect one for your needs.)

AMD Ryzen 5 3600 / 128GB RAM / 512GB NVME/1gb unlimited - \$180

AMD Ryzen 7 3700X / 64GB RAM / 1TB NVME/1gb unlimited - \$200

Domain names: (We have almost all extensions; these extensions are provided for example)

.com - \$30

.net - \$40

.top - \$15

Domain names are registered in offshore, which guarantees some loyalty.

We accept cryptocurrency payments. Discounts are available for regular customers and large volumes.
