? START YOUR OWN IPTV BUSINESS ?

XtremeDiscount IPTV Reseller Program

Your Own Reseller Panel • Set Your Own Prices • Keep Your Profits • Start Small & Scale
PRICING IS NEGOTIABLE — LET'S MAKE A DEAL

? What Is The XtremeDiscount Reseller Program?

Want to start your own IPTV business without building the entire infrastructure yourself?

The XtremeDiscount Reseller Program gives you access to your own IPTV reseller panel.

You create and manage subscriptions for your own customers, decide what YOU want to charge them, and keep the difference as your profit.

This is not an affiliate program.

Your customers are your customers.

You control:

Your selling prices

Your customers

Subscription lengths

Number of devices

Renewals

Expiration dates

Your reseller credits

You don't need to be an IPTV expert to get started either.

The panel is designed to be simple to use, and we provide support if you need help.

? See The Reseller Panel

This is the type of dashboard you'll use to create and manage your customers:

From your reseller panel you can:

Create customer accounts

Activate service instantly

Track your available credits

Manage renewals

Set expiration dates
Manage your customer base 24/7

You control the business.

? Do I Need A Huge Investment To Start?

No.

This is one of the biggest things I want HackForums members to understand.

You do NOT need to jump straight into a massive reseller package just to test the business.

If you want to start smaller, talk to me.

If you already have customers and want to start bigger, talk to me.

If you're somewhere in between, talk to me.

TELL ME YOUR BUDGET — LET'S SEE WHAT WE CAN WORK OUT.

I'm much more interested in building long-term reseller relationships than arguing over a public fixed price.

Prices are negotiable.

As your customer base grows, you can scale your reseller account up later.

? What Are You Actually Selling?

Your customers receive access to the same premium Xtreme HD IPTV service.

Current service includes:

- 25,000+ Live TV Channels
- 150,000+ Movies
- 35,000+ TV Series
- USA Channels
- International Channels
- Sports
- PPV Events
- Movies & Series On Demand
- EPG / TV Guide Support
- HD / Full HD / 4K where available
- Multi-device options

Here's an example of the service running through TiviMate:

? Live TV Categories & Channel Guide

Customers can browse their Live TV, Movies, Series, categories and channel groups through supported IPTV players.

Here's an example in TiviMate:

This makes it easy for customers to navigate large playlists without scrolling through one gigantic channel list.

? Movies & New Releases

The service includes a large VOD movie library with organized categories and new releases.

Example using UHF:

Your customers aren't only buying Live TV.

Movies and VOD are a major part of the service too.

? TV Series & Recently Added Content

There is also a large TV Series library.

Example using UHF:

This gives you more than just live channels to sell.

You're offering customers Live TV + Movies + Series + Sports + International content in one service.

? Sports Fans Are A Huge Market

Sports is one of the easiest ways to attract IPTV customers.

Coverage may include:

NFL

NBA

MLB

NHL

College Football

College Basketball

UFC
Boxing
MMA
PPV Events
Premier League
UEFA Champions League
La Liga
Serie A
Bundesliga
MLS
Formula 1
Golf
Tennis
And more

Content and event availability can change, but sports customers are a major market for resellers.

? How Do Reseller Credits Work?

Credits are what you use inside your reseller panel to create subscriptions.

The simplest example:

1 MONTH + 1 DEVICE = 1 CREDIT

Longer packages and multi-device subscriptions get better credit efficiency.

Here's the full credit usage structure:

Code 1 MONTH

1 Device = 1 Credit
2 Devices = 2 Credits
3 Devices = 3 Credits
4 Devices = 4 Credits
5 Devices = 5 Credits

3 MONTHS

1 Device = 3 Credits
2 Devices = 5 Credits
3 Devices = 8 Credits
4 Devices = 10 Credits
5 Devices = 12 Credits

6 MONTHS

1 Device = 6 Credits
2 Devices = 11 Credits
3 Devices = 15 Credits
4 Devices = 19 Credits
5 Devices = 24 Credits

12 MONTHS

- 1 Device = 12 Credits
- 2 Devices = 22 Credits
- 3 Devices = 31 Credits
- 4 Devices = 38 Credits
- 5 Devices = 47 Credits

24 MONTHS

- 1 Device = 24 Credits
 - 2 Devices = 43 Credits
 - 3 Devices = 61 Credits
 - 4 Devices = 77 Credits
 - 5 Devices = 95 Credits
- Notice the built-in savings on larger packages.

For example:

12 Months + 5 Devices

12 x 5 would normally equal 60 credits.

The actual package uses only:

47 Credits

Another example:

24 Months + 5 Devices

24 x 5 would normally equal 120 credits.

The actual package uses:

95 Credits

That gives you more room when selling larger subscriptions.

? You Decide What Your Customers Pay

This is where the business side comes in.

I do not control what you charge your customers.

You decide your own retail pricing.

Different resellers target different customers and different markets.

You can sell through:

- Local customers
- Referrals
- Telegram

WhatsApp
Facebook
Craigslist
Reddit
Friends & family
Existing businesses
Your own website

You don't even need your own website when you're starting.

Get customers first.

Build the website later if you decide you need one.

? How Fast Can You Start?

The process is simple:

Contact me
Tell me you're from HackForums
Tell me approximately what budget you want to start with
We discuss a reseller setup that makes sense
Your reseller panel gets set up
You receive your credits
You start creating customer accounts

That's it.

No complicated business setup required.

? TEST THE SERVICE BEFORE YOU SELL IT

I'm not asking you to blindly sell something you've never used.

Try the IPTV service yourself first.

We offer a:

FREE 36-HOUR IPTV TRIAL

Test:

Live TV

Movies

Series

Sports

International channels

EPG

Streaming quality

See the product yourself before deciding whether you want to sell it.

? Want To Build A Bigger Operation?

If you're already experienced or you want to build a larger reseller network, ask me about our Super Reseller options.

Super Reseller setups can allow you to recruit and manage other resellers underneath you.

That's better suited for people who already understand the business and want to scale beyond individual customers.

If you're already bringing customers with you, mention that when you contact us.

? Support

You are not buying credits and then being left alone.

We provide:

24/7 support

Reseller panel guidance

Setup help

Customer troubleshooting help

Ongoing service updates

Our website Live Chat is available 24/7.

You speak with a real person.

? HACKFORUMS MEMBERS — LET'S MAKE A DEAL

I'm intentionally NOT putting a "\$X per credit" price in this thread.

Why?

Because every reseller is different.

Somebody testing the waters is in a completely different situation from somebody migrating hundreds of customers.

Tell me what you're trying to do and what you're comfortable investing.

Then let's see if we can make something work.

You don't need to show up with thousands of dollars just to have a conversation.

Want to start smaller? Message me.

Want a larger bulk deal? Message me.

Already have customers ready to migrate? Definitely message me.

Not sure if IPTV reselling is for you? Grab the free trial first.

LET'S MAKE A DEAL THAT MAKES SENSE FOR BOTH OF US.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
