Hi. I'll send you a URL, and you can activate it using your preferred email address.

You must not have any active Gemini Pro service or subscription associated with that email address. If you currently have one, you'll need to cancel it completely before activating this one, or use a different email address.

So yes, it's via Jio subscription invite. I paid someone on this forum for 18 months, got about 30 days out of it and it randomly got canceled. The only way to get a replacement is to use a new Gmail account which I can't be bothered doing.

If it's not Jio, DM me a vouch copy.
