Thread: [Girl Best Friend](#)

Aqzxk - September 13, 2026, 9:03 pm

My girl best friend is (25f) and she's recently taken to getting naked on FaceTime with me. A few months ago she got her nipples pierced and was like, "wanna see?". I was like, nah. Idc, I had a gf at the time.

So fast forward to about a week ago, she's like hey, I got new piercings. Wanna see? I'm like, sure. If you want to. Showed me her piercings, I'm like nice, looking good. Later on she's like, I'm changing. Tits out again. Fast forward to a week later, she's was on the floor playing with her dog, ass goes pretty deliberately toward the camera, fast forward more. She is out of frame talking about the gym, comes back is like, I'm so skinny, look! Tits out, panties. I'm like, it's been 3 days relax now. But you look fire.

So she knows I'm not gay. It's either she's
THAT comfortable with me
Or
She tryna...

Now the craziest thing is that she's talking to another dude right now. I wouldn't say it's her man, just a casual thing but still..

This is not normal. Or maybe it is? Let's hear what yall got to say about your female friends

sounds like something a gay boy would say. Plug her and dump the underpants navy into the ocean

You know what WILL ruin a "good thing"? Rejection. if she feels rejected you're getting cucked either way. might as well sink the ship my guy

Go for it my guy. It couldn't be anymore obvious that she's curious about exploring more with you. You're an adult, have some fun. If you don't want to date then set that simple boundary. Plenty of friends hook up as you get older.

Your instincts seem to be telling you something. I'd follow that.

Easy to get into trouble over this. Harder to stay away from the temptation.
