If I get some bytes from sports book I'll be betting, but I lost on a sure thing ...

Redsox?

Those fuckers got me :(I usually only bet on hugely likely wins to reap smal lrewards, and the fuckers went and lost.

Nope, it's on Blue Jays against the Orioles that are underdog.

Oh yeah, those soccer games that end up with draw sucks haha. I avoid betting those games which have W, L and D unlike other sports it's only W or L.

Don't blame you, I wish Poker was around, or something a bit more less house-y wins like Slots and Blackjack, but maybe I should just go to a real casino.

Deany - September 14, 2026, 1:50 am

Checking in with the DF. Hope you all have a good day today.

Better play with bytes only not with real money that will end you up losing.

Gambling is a game of chance and the odds of winning is thin compares of winning.

Poker would be incredible.

Imagine HF tournaments, Bytes for buy in etc.

Not impossible to do with the API.

Maybe a vibe code project for a weekend mayhaps.
