Disputed Member: <https://hackforums.net/member.php?action=profile&uid=1443720>

User scammed me, I have sent him \$550 USDT to ban an instagram account, this is the address that he gave to me via PM: TGwP92AoAAf6ctgSpGrUy9WZLdDJbkUv8X

His thread: <https://hackforums.net/showthread.php?tid=6291447>

This is my TX:

<https://tronscan.org/transaction/0c4cade5e6f334378cf6f4a4fa9ba125ea2117fd9b1ac045fbcbac2a16d76472/overview>

I can open my wallet in team viewer to an admin to proof that this is me and I sent the money from my own wallet.

This is the hash: 0c4cade5e6f334378cf6f4a4fa9ba125ea2117fd9b1ac045fbcbac2a16d76472

Google folder with all proof: [https://drive\[WARNING POSSIBLY INFECTED\]google.com/drive/folders/1L3GsM1NzAM0L2-e4kACJ0y0iX9Hyxnmd?usp=sharing](https://drive.google.com/drive/folders/1L3GsM1NzAM0L2-e4kACJ0y0iX9Hyxnmd?usp=sharing)

Screen A - him asking me through PM what is my telegram account

Screen B - me giving him my telegram account through PM

Screen 1 - him verifying his account

Screen 1.1 - him sending me the USDT address through HF PM (because I asked to do so) which matches the one he sent me through Telegram on Screen 2

Screen 2 - him sending me the address and I sending him the confirmation hash, which has also be sent through HF PM system.

Screen 2.1 - Me sending in his PM system the tx hash confirmation

Screen 3 - his user on telegram

Video - full video of conversation with him (after 10 days no ban, nothing) where I show his telegram user and the FULL conversation. I wasn't expecting this from him... so "reputable" account. 5 days already passed as per his terms required to ban the account..

Now it looks like I can't find him on telegram anymore with that handle, looks disappeared.

I can show my private messages on HF no problem to any admin via team viewer so they can see everything. I am happy to provide to any admin all the proof that admin needs.

I can't find this user anymore on telegram "@trades7708".... I think this guy just thought I'd be so stupid to not take any proof. Woops.

Thank you

Hey bro, are you ok?

I'm still on telegram with all the chats we have.

Don't be scared lol. I'm not running.

On 14th we discussed everything on telegram. That i need more time and this week it will be done. He agreed all is good.

I promised him this week, today is 17th but anyway.

He scared that be got scammed.

He never contacted me on hf - that he failed to find me on telegram.

I just pm'ed him and already refunded him.

Never a dispute. Never meant to be one.

Tells you: "It's a failed case" but then tells you "This week 200%" after already failing to meet his own ETA whilst not proactively contacting you about it.

Yeah, you got scammed. Sorry.

This is why you should use a middleman like [jcole](#) so you don't end sending money for something but not receive it.

I hate the social media banning services. They all seem bogus to me, but people pay serious money for the services.

User just reached out immediately from a new TG account/username and refunded me. I confirm I have received the full refund.

He told me I was supposed to send him a pm on HF and ask him if by any chance if he changed his TG account.

I don't see this happening from client's side to be honest, I woke up and I couldn't find him on telegram and I was not informed of any change - this leads to believe I got scammed.

As him being a "vendor" I am expecting clear proactive communication, specially after waiting 10 and more days without bothering him - I was the one always following up.

I understand he is a popular user but from my own experience, it was quite sketchy overall, not sure if I'd ever deal in future with the user - but what I am sure of is that his account's value is worth more than \$550 that's the only reason he refunded me. He'll have better and bigger chance in the future with someone else, trust me.. it's only about time...

Sorry buddy, I know you are praying me to edit and just say that there was a "misunderstanding"

but I can't, I'll say what happened and being honest with myself and I know I will receive a lot of negative reputation and hate for this reply - but at least I did my part for the community, in the hope other deals will be smoother for you and for clients. Nothing personal, just see this as a constructive criticism for your future deals - bring in more clear communication as vendor.

I believe this was an attempt...however was not worth it for now.

Best of luck

Appreciate anyone's help in this, nothing required from him anymore. Money returned.
