Thread: [FPS Games](#)

GamBite - September 17, 2026, 10:45 am

Heyyyy, what are some fps games that are interesting these days? I used to play valorant but i feel like it kinda lost its popularity. What are some recommendations you have?

I really love Player Unknown Battlegrounds on PC. That game is always lots of fun

Raijin - September 18, 2026, 6:49 am

Well it's not exactly FPS but Fortnite is pretty fun.

Yea very fun game. Everyone starts out in an airplane, parachutes out, you find weapons and have to be the last one left. I like it better than warzone in my opinion
