Thread: [OSINT site that I can put an email and find phone number with?](#)

its1988andwearefree - September 18, 2026, 7:14 pm

I am seeking an OSINT site I can use to put an email and discover a phone number with (IP Address is acceptable as well if that's the best I'm able to get, but phone number is preferred)

I've seen a few like this, but they typically ask you to pay with Paypal or credit card to see the information.

Is there a similar site or service that is free? or gives an option to pay with Monero.

Forget it. Only a data broker might have such information.

I am interested, I tried to send you a PM but my account is too new for it. It might work if you send me a PM.
