Thread: [LYFT - multiple account creating method without suspensions](#)

ilik3tr33s - September 20, 2026, 8:20 pm

Title. looking for someone who knows how I can constantly create new lyft accounts without getting automatically banned when I place a ride.

[contract=tid]Start Contract[/contract]

Where is your country location?

I know few ways.

A script is available for purchase that allows you to create large numbers of accounts without getting banned.

where? does it actually come with the method to use them as well? because creating the accounts is easy, its just the method where they most likely detect your phone/device/ip/etc and auto ban you that i need to get by

Yes, there is a tool that allows you to create multiple accounts without getting banned. It works by changing your device type and IP address, utilizing proxies and various other features, enabling you to generate numerous accounts without facing bans.

Yes, I got ways working for US & CA region.

But works on Android only and using Proxy

how much do i have to pay for proxys on android?

my DC is hbxd

ilik3tr33s - October 18, 2026, 7:28 pm

Still looking for method. personal usage, not looking for mass production

DC: hbxd
