Thread: [Easy TikTok Method](#)

yasix2002 - September 22, 2026, 7:23 am

Hey, so most of you have heard of the TikTok Creator Rewards Programm (Only available in: US,UK,GE,FR,JP,SK,BRA), which pays Creators (depending on rpm) per 1k views.

So what's stopping most people from getting into the CR-Programm?

1. At least 10K Followers.
2. 100K views in the last 30 days.

Getting 100k views is easy but 10k followers takes a lot more time.

I myself have used this method multiple times and still am, to get to 10K followers. With this method you'll reach 10K followers instantly (but I recommend loading them and always after a video with higher views).

I have 4 accounts and made up to \$270 per video.

Tipps for a good TikTok account:

1. Warm account up (24h-48h)

Use ur account like a normal user (only like videos on fy, comment 1-2 per day, don't instantly follow people or search for your niche).

2. After (24-48h) search for Niche

This allows your account to get into the Niche of you're posting and therefore receive better results.

3. After Posting a video go on fy and like/comment

This will boost ur alg again.

4. Stay loyal to ur niche

Choose a niche and only focus on it for additional rewards.

5. Post 1-2 per day (video must be at least 1m)
