KeySell - September 25, 2026, 6:42 am

?Windows (11/10) (Pro/Home) Retail activation keys for 1 PC are now available for purchase.?

Lifetime activation, region-unlocked

After purchase, you will receive a 25-character code in the following format:

XXXXXX-XXXXXX-XXXXXX-XXXXXX-XXXXXX

PRICE:

1 unit or more - \$1.30

50 units or more - \$1.20

100 units or more - \$1.10

(P.S. This is a Windows activation key. To activate it, you must already have a specific version of Windows pre-installed (for example, a Windows 11 Pro activation key can only be activated on Windows 10 or 11 Pro). This key does not upgrade your OS version from Home to Pro. You do not need to use third-party services, call support, etc., to activate it. The key activates automatically, right in your PC's settings.)

(P.P.S. Windows 10|11 Pro|Home OEM keys are also available. However, their prices vary, so if you're interested in them, please message me, and I'll confirm the cost.)
