You already have a thread for this. What's changed since then and now?

These are yearly subscriptions

JDAM - September 27, 2026, 9:48 am

Anthropic/OpenAI don't offer yearly subscriptions for their \$100/\$200 plans. OpenAI doesn't for their \$20 plan, even.

Are you actually able to deliver a year at a time in a way that won't be revoked, or are you planning on stringing users along the entire duration?

12 1-month subs you force buyers to pay for all at once initially isn't a yearly subscription.

mackozdr - September 27, 2026, 9:56 am

Crazy stupid idea in modern ai world buying 1 year sub upfront hahah

The subscription is set up through Enterprise for a full year. There are no issues with that

JDAM - September 27, 2026, 7:01 pm

I'd go month-to-month on it, but never yearly, given how unreliable the service tends to be.

Paimon - September 27, 2026, 7:39 pm

A month to month would be nice I need three 20x for a project that won't take me longer than a month

JDAM - September 29, 2026, 11:04 pm

Your infographic describes Claude Max 20x via enterprise, which to my knowledge doesn't exist. Enterprise (as opposed to Teams) has a flat \$20 per seat and charges at API for overages. Chat GPT Business Premium is at 5x, as stated by OpenAI, and if you look at Business Standard usage it is the same as a Plus subscription. The only part of the infographic that is accurate is for Claude

Team Premium seat which is \$100/mo if charged yearly and is said to provide 6.25x the usage of Pro. I don't want to trash but I'm genuinely concerned by the amount of obviously incorrect information.

"Enterprise and Edu plans without flexible pricing have the same per-seat usage limits as Plus for most features."

There's no obviously incorrect information here, just your lack of knowledge, nothing more.

If you were genuinely interested in understanding how this works, you could have at least asked me about it in private messages. Right now, it just looks like you're trying to farm forum posts.

I've explained in general terms how it's done. If you have doubts, nobody is forcing you to make a purchase.

OpenAI documentation explicitly states that Enterprise seats have the same usage as Plus. There's simply no way for you to provide a 20x plan through Enterprise for either company. Additionally, Max 20x/Max 5x through ChatGPT don't even exist anymore. They were replaced with Pro 100, 200, 500 at those pricing tiers and have unpublished usage limits. Maybe the \$500/mo plan has 20x usage.

I don't think I'm asking for much and you haven't posted any contradicting evidence. I genuinely have no idea what you're trying to sell here.

Price how much and Warranty

Stanley - October 16, 2026, 9:46 pm

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP

(Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
