Thread: [Gemsloot fresh Verified Account](#)

Wilmer - September 27, 2026, 2:04 pm

Looking for verified gemsloot account. It's a website like freecash where you play games, sign up for services for rewards. I'll either pay for each verified account or split earnings up to a certain point. Very good at earning/gaming the system with those sites but I've yet to find a reliable KYC method to make new accounts.

Apologies to you and everyone else that tried contacting. Haven't gotten any notifications on HF past week or two nor have I logged in on the pop out chat. I'm waiting for in house chat to come back. Feel free to message me on telegram and if reach an agreement we'll return here for contract. I only deal with a Hackforums contract and won't go first to new/barely active accounts. Again speaking to everyone not just user I quoted. WilmerHF is the tele

Returns vary widely over long periods of time. Regardless I'm not paying anything crazy just for a KYC so not scaling to possible earnings. Already set up to grab a few from someone later today and

test to see how profitable will be.
