I saw the site like Redditbooster.com and likewise and found that they have users that charge aged accounts of 8 years in price of \$10000+

I thought that i have many aged accounts in good karma and minimum 10 years+ and i will sell them for \$1000-1200. You will check before

buy but only serious buyers only. you can check the accounts before buying. Payment in BTC or USDT. (TRC20) You can also email me at freelancerrantonio@proton.me to know more
