Thread: [FlyDubai Israeli bound pilot stabbing.](#)

Prepper - September 30, 2026, 2:43 pm

A flight from Dubai to Tel Aviv plunged 14,000 feet after the Omani co-pilot stabbed the Indian main pilot.

Thanks to the bravery of the pilot fighting back and being able to open the cockpit door passengers were able to subdue the co-pilot and secondary pilots on board were able to safely land the plane.

Out of 174 passengers 164 of them are Israeli.

While more details are needed I think we can paint a pretty clear picture of the intent of the co-pilot.

The co-pilot is Omani, for those of you who do not know Oman is a Islamic country, this is likely a failed Islamic jihadist terror attack with the intent to kill all Israeli passengers, I would be surprised if it ends up not being the case.

DramaKing - October 1, 2026, 3:43 am

The media is, of course, trying to avoid any depiction of terrorism without hard evidence, but there can be no other motive. This reminds me of how United 93 did crash.

The Omani Islamic terrorist Hamam al-Hammam

Background & Red Flags: Al-Hammami had previously been removed from flight training/duties at Oman Air and Royal Air Maroc due to concerns over extremist, radical, and sexist views, and worked for Flydubai for about eight months.

This video from CNN contains multiple social media posts from the Islamic terrorist.

[Video: <https://www.youtube.com/watch?v=KN4CcSk3UpY>]

The fact that UAE allowed this scumbag Islamic terrorist to fly for them with those views and history being known is unacceptable.

And if me calling him an Islamic terrorist hurts your feelings then go cry about it I do not care, I am calling it as it is, walks like a duck, quacks like a duck, it's a duck.
