Thread: [Looking for someone with a stripe to receive for me | You get 20%](#)

?Daly? - October 3, 2026, 7:03 am

I have a small site for "audiobooks" with a preset one-time payment membership (\$50), But unfortunately i happen to be from egypt where it's almost impossible to have something like "stripe", so i'm looking for someone with a stripe account to receive my site's payments, take a percentage (20%) "\$10" per each order that i receive, then send me the rest using other methods such as moneygram or crypto.

PM me with your telegram or whatsapp.

What happens if someone charges back & disputes the charge, and you've already received your cut in crypto?

Exactly. The % needs to be higher for someone to be interested. Very high fraud risk.

i will have the responsibility and take care of that . we don't really get disputes though

NOTE: i rarely get any disputes, and if we do, i'll definitely pay for it!

Percentage raised to 20%. thats \$10 out of every \$50 we get. Still looking
