WHAT IS JINX BETS?

Me. ? I watch eSoccer Battle (2x4), Volta (2x3) and eBasket NBA (totals, moneyline and handicap) all day and all night — I know every player's habits:

who parks the bus, who goes wild, who falls apart after conceding. When the bookie's price is wrong in your favour, I slide the pick into your Telegram.

No price mistake, no pick. I don't do "maybe". We handle everything — you just place the bet. Every pick comes with the odds, the units, the stake in €, and the minimum odds it's still worth taking.

HOW IT WORKS

1. A notification drops: match, pick, odds, units and stake.
2. You place the bet on your bookie (odds below the minimum on the card? skip it).
3. You get back to your day. Results get settled for you, and a live board shows the score, the minute and a watch-live button.

WHAT YOU GET

- Pick cards with players, teams, competition, odds, units and € stake — 1–3u sized by the edge (unlocked after the edge was proven over 300 picks)
- ACTIVE MATCHES live board: live score, estimated minute, how every bet is going, watch-live button
- Every bet settled for you — overs cashed the second the goals land
- One long session every day: 15:15 -> 10:00 UTC (evening -> midday, with a short break 04:00–05:35 UTC) + a session recap when I close and a weekly report every Monday with the best hours
- Channel too busy? Send /picksonly and get only the picks, in private

RECEIPTS

Every single pick and result is posted in our public channel, wins AND losses. No deleting, no cherry-picking.

HOUSE RULES / FAQ

Do I need experience? No. If you can read a notification and place a bet, you're set. Full guide: jinxbets.com/how-it-works

Which bookmaker? Any bookie with EsportsBattle e-leagues — see jinxbets.com/bookmakers.

What's a unit? 1u = 1% of your bankroll. Same stakes, whole session, no chasing losses.

Is profit guaranteed? No. Nobody can guarantee that, and anyone who does is lying. Judge the results over weeks, not single bets — they're all public.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
