Thread: [\[WTB\] Steam Wallet Balance / Game Gifting](#)

Juxtapoze - October 6, 2026, 8:34 pm

Looking to purchase a game (Escape From Tarkov) on Steam via gifting, trying to save some money since the game costs so much dang money. All of my friends are playing it right now and I would like to join in but can't quite afford it at normal cost so if you have extra Steam Wallet funds you want to cash out at a discounted rate hit me up ?

I can offer it to you for a discounted price of \$25 if you're interested.

I was interested in the Unheard Edition so I could get access to the PVE mode, the Unheard Edition is currently on sale on Steam for \$155.98, if you wanna give me a quote for that version too that would be cool. I am interested in the first offer if you aren't able to make an offer on the unheard edition

Yes, I can also provide the Unheard Edition for \$95 if you prefer that version.

I completely understand your caution regarding safety, and I'm happy to keep things completely transparent and secure. Send me a private message
