Thread: [CUSTOM AI AUTOMATION SERVICE I BUILD TOOLS THAT DO THE WORK FOR YOU](#)

LimeLab - October 6, 2026, 11:38 pm

? WHAT I OFFER

? AI-Powered Automation with Lifetime Support !

I can build custom tools using AI/LLM technology for tasks such as:

Code AI-powered data processing

Text analysis & classification

Document/PDF processing

Information extraction

AI assistants

Content processing

Summarization

Automated report generation

Custom AI workflows

AI API integrations

And much more

? Custom Automation

I can also automate workflows that don't necessarily require AI:

Code Repetitive tasks

Data processing

CSV/JSON processing

API integrations

Webhooks

Database workflows

Scheduled tasks

Notifications

File processing

Custom admin panels

Internal tools

Multi-step workflows

If you have a workflow in mind, just ask.

? DON'T KNOW HOW TO AUTOMATE YOUR IDEA?

You don't need to know anything about programming.

Just explain what you're currently doing.

For example:

"Every day I receive a bunch of data, manually process it, organize the results and send a report. It takes me around 2 hours."

I'll look at your workflow and determine:

- > What can be automated
- > Where AI can help
- > How the system should work
- > What APIs/services are required
- > How much it will cost

You don't need to come to me with a technical specification.

Describe the problem. I'll figure out the technical side.

Terms & Conditions:

- Depending on the project, you may need to pay part of the project value upfront.
- Lifetime Support is given but any changes will require additional cost.
- PayPal payment option can be denied or accepted based on member's account age. I reserve right to accept or deny anyone for PayPal payment option.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
