Thread: [Trump Declares AI Users the Enemy](#)

Nikola.4737n - October 9, 2026, 12:33 pm

? loading encrypted image... President Trump declared on Thursday that anyone who says "Artificial Intelligence" instead of "Super Intelligence" is "THE ENEMY!" (even as own White House still uses "AI."). Time to get used to Super Intelligence I guess.
Are we the enemy now?

So anyone who uses their 1st amendment right is the enemy.

I have decided to come up with something else, SU - Super Unintelligent.

This administration is officially Super Unintelligent, anyone who still supports this administration is also Super Unintelligent.

Bunch of fucking idiots.

You know what would be great? if the President decided to actually do something that matters, do something intelligent and ease cost of living for Americans instead of renaming shit.

So they're enforcing speak now?

Seems like an artificial construct

Edit: I was made aware that it's super construct

On a more serious note; it would be interesting if anyone got any idea about what they try to achieve with this. What's the end goal here.
