Thread: [Aurora Model - Strongest Uncensored AI / 90% of Opus 5 Power](#)

AuroraUncensored - October 10, 2026, 8:50 am

Aurora — Custom Trained Model

The AI that doesn't say no.

auroramodel.net

Most models lecture you. Aurora just answers.

No refusals. No moralizing. No sanitized output.

? WHY AURORA?

Uncensored — that's the whole point

Cybersecurity & malware expert — analysis, dev, reverse engineering, exploit knowledge

Capable of EVERYTHING — coding, deep reasoning, math, writing, 20+ languages

1M token context — whole codebases in one prompt

OpenAI-compatible — change your base URL, done

Zero data retention — prompts never stored, never used for training

~80% cheaper than frontier models

? PRICING (per 1M tokens — same for everyone)

INPUT — \$3.47

CACHED — \$0.35

OUTPUT — \$5.79

? GETTING STARTED

1. Create a key for free -> auroramodel.net

2. Top up with crypto -> [Telegram @AuroraUncensored](#)

3. Point any OpenAI-compatible tool at it. Done.

Aurora fuses the strengths of top models into one — ~90% of Opus 5 power, uncensored, at a fraction of the price.

Aurora is ~30% cheaper on input, ~30% cheaper on cached input, and ~77% cheaper on output (\$5.79 vs \$25).

The freedom is the product. Try it.

Hello

Aurora has access to DayBreak and CVP and many more stuff on the side

GLM 5.3 And ABLI are not even close to this, try it your self.

I have given dozen of trials by now , but sure.

Stanley - October 21, 2026, 11:40 am

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
