Thread: [What New Game Would You Like To See Added To HF For Bytes Gambling?](#)

DemonAsylum - *October 11, 2026, 9:20 pm*

While HF currently has a handful of ways you can gamble bytes, it's pretty bare compared to the massive amounts that exist and nothing new has been added in as long as I can remember. With that said, what game or form of gambling would you like to see added to HF? I'm a big fan of convo here on HF and so I would like to see one or more games added to there, maybe also bringing some competition to flipping. Omni has previously talked about doing some sort of dice game in there and I think that could be solid. Outside of convo it would be cool to have some games similar to the originals that most major crypto casinos have such as keno, plinko, dice, mines, hi-lo, etc.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
