Thread: [Goals for the last few months of 2026](#)

Mix - October 11, 2026, 11:55 pm

2026 is coming to an end very soon, the year has gone fast once again, and I can say I have managed to achieve a lot more than I expected this year with my life and ambitions. I just wanted to see if anyone else has achieved anything this year or is close to?

Congrats for the achievements, I'm glad to read that things went well for you :)

Not the case for me, I've been in a difficult situation for 3 years now, hard to get back on my feet, but I keep trying. If I do nothing, then nothing will happen ^^

And thanks again for the huge work on the News :) I wish you even better things for 2027 !

Thank you for your kind words. I am sorry to hear about your situation but keep working hard towards fixing it, and I am sure things will get better.

Regarding the HF News. Thank you very much, I can not lie. Part of the achievements this year comes from the news and how well its gone.

I know that feeling and it becomes heavy but doable. I hope you keep on cracking on.

Twitch Partner, but hard to see it happening unless something crazy happens soon.

Anything could happen, all you need is that viral moment and boom!

Yeah, just not plausible without a miracle.

I got my business started and im doing well. The only thing i'm trying to balance now is a work / life balance. I'm either working too much or nothing at all.

I'm glad your year was so successful, Mix!

To be honest, I feel like this year was mostly a wasted year for me. Too much work, not much fun, mostly responsibilities and burnouts.

But it was definitely a stepping stone, and next year things will be much different.

kinnu543 - October 14, 2026, 12:10 am

I am looking for side income along with my regular job.

Sounds a little rough, Regrading the burnouts, I would keep them in mind for the following year to keep yourself away from letting it happen again that way you can be more productive next year. Or even till the end of this one.

Hell yeah brother. I hope to do the same myself

Been saying I need to achieve and gather some more certs by the end of the year.

While I have been studying, I would say I am a bit more behind my goal still.
