Thread: [If you want something done right, do it yourself. Agree or disagree?](#)

If you want something done right, do it yourself. Period. Trusting other people can get you fucked over and cost you a lot. If you do it yourself, you do it once, you do it right, and you know it'll be good. If you let someone else do it, they can half-ass it, and you'll be paying for their laziness later. Am I wrong?

100% agree

No one but yourself cares enough for a task

I get what you mean, especially when you've been let down by people who don't put in the same effort as you. But doing everything yourself can burn you out too. I think it's more about knowing who you can trust and when it's worth handling things yourself.

100% agree don't like relying on others for stuff.

Um no, I'm probably going to hire someone to fix it.

Yeah, finding that balance is probably the hardest part. You want things done right, but you also need time for yourself.

Yup, i feel like you've succeeded in life when you can manage both.
