Thread: [What's the most immersive game you've ever played?](#)

For me, STALKER GAMMA has to be pretty high up there. Between the atmosphere, survival mechanics, and how unpredictable things can get, it's pretty easy to get lost in the game for hours.

Curious what games you guys would consider the most immersive you've played?

Escape from Tarkov would be the one for me.

Tarkov is such a good game. All these other studios trying to capture their magic but always fail.

Bodycam is definitely the most immersive game if you could pure realism.

Yeah, if you can fly a drone in real life, you can in the game. Vice versa.
