I wanna see how old people really are.

Does anyone remember Stickpage or Stick Arena? These were the golden days.

Stick Arena was XGENStudios if I remember correctly.

Stick Arena was a really tight community back in the day. Stickpage is unrelated to Stick Arena, but it's just crazy to think back on them.

The power of time travel would be nice.

Well, not exactly. Maybe something similar to Cyberpunk 2077 to relive memories.

Traveling would be deadly for the future.
