What is your Favorite movie genre to watch? Whether it's Comedy, Action, Horror, Thriller, Romance, etc.

For me, it's gotta be Comedy since who the hell hates to laugh?

I like a suspenseful movie, not exactly horror but something drama/thriller.

My wife only likes to watch horror films, it's very rare I get her to watch a comedy or action.

I think it might be easier for people to connect into, a lot of curiosity takes place wondering what's going to happen, what you would do in that situation, how to win.

It depends on the movie of course, but just not my cup of tea.
