Thread: [Hot or Cold?](#)

oRequiem - October 12, 2026, 2:55 pm

Do you prefer to be hot as in sweating or cold as in freezing?

After basically living upstairs in my house, I'm thinking I prefer cold since it seems like being hot CONSTANTLY is so energy draining.

Sift - October 12, 2026, 2:57 pm

Rather be hot to be honest.

Man, if you lived in this room. You'd change your mind real quick

Deany - October 12, 2026, 2:57 pm

I need it to be cold or else I will die.

Yeah man, it's pretty brutal. It's like 81 degrees in my room alone right now. I have a portable AC running, the house's AC running and another fan running.

Been in 30-34 degrees heat for 3 months now hehe mostly been sweating badly.

Much rather be cold. I hate the heat. Especially when it's very humid.

Yeah, you're lucky you're not here right now. It gets bad real quick.

I'm like a 1 day drive away from there, but it's been humid here constantly.

See that's pretty nice. Humidity sucks but man 64 would be great right now. I have so much to do outside and I just haven't had the energy to deal with this heat.

Yeah, it just gets brutal since I'm upstairs all the time.

Yeah at one of our previous houses, there was a room upstairs and if you didn't have the ac blowing cold it would get hellish up there real quick. It was similar to being in an attic. I didn't spend much time in there.

The sweat pouring down right now?

Hern - *October 13, 2026, 4:31 pm*

Definitely would rather be colder as I can just throw a nice comfy blanket or hoodie on

Laughing Man - *October 13, 2026, 7:47 pm*

I'd rather be too cold, because I can add clothing and blankest, I can only take off so much before I can't remove anymore and people get strange when you start peeling your own skin off for comfort.
