I'm currently watching You and I Are Polar Opposites Season 2 because I just haven't had time to finish it. I'm just rewatching Season 1 then moving back to Season 2.

Dragon Ball Super was so great. The following movies were okay.

I think amongst the true anime guys like yourself and Deany and some others on here. Dragon Ball Z is probably pretty looked down on. I don't think a lot of people actually consider it a true anime. Just my opinion.

I never saw it as Anime just like YuGiOh, but that's only because how old it is. I never heard about it being looked down on though.

I've currently got three ongoing shows: Hunter x Hunter, Solo Leveling, and Parasite. They're all so good that half the time I don't even know which one to watch, so I just spin the wheel ? Makes it easier when you're indecisive.
