You might want to practice this game.

There are 10 levels.

Gamification on HF taken on a new level. Prepare yourself.

I got to level 6 so far, that game gets my heart racing lol.

This looks pretty fun! Tried playing on my phone but it was a little glitchy - will try again on my PC soon!

The idea is to use this as a test where I'll run this from nodejs with verification of membership and score so that cheating can't happen. Then I can do things like top scores and Award Goals. Once I do that for this game, I can do it for others.

I didn't realize it didn't save where you are at. I got to level 6 and left the tab to reply to this thread. All good though, doesn't take long to get through the first 5 levels.

It's a beta.

When it's running on the nodejs, I'll see what's possible.

I had a great time playing this for a bit and am very much looking forward to you doing more with it.

Just had a little play and enjoyed that honestly, very simple and effective.

Fish - October 13, 2026, 3:36 am

tried this on my computer and its pretty addicting. got up to round 5 then gave up. takes a bit to figure out the little tricks to survive

Cool, it's nice to see most members enjoy this.

For me it comes off as weird and AI slop, doesn't commute with the Hack in HackForums despite it being somewhat hacker themed.

IMO the CanYouHackMe.me stuff should take its place, albeit a joint collab thing. That's by far closer to the brand and it's inspiring and stimulating. HackHF was also super awesome. Actual hacking challenges etc.

Demon about to get the first one to get the award.

Quite glitchy on the phone, movements aren't recognised.

I'll have to try it on PC.

Is it iphone or android?

jcole - October 13, 2026, 8:38 am

This is really cool! It's tough to do on mobile.

Jamika - October 13, 2026, 9:44 am

I played it on my phone, and it nearly made me go blind, but it was so, so much fun! ?

Omniscient - October 13, 2026, 9:53 am

I wasn't really thinking mobile when I made the game. It does seem compatible but controls need improvement. I'll see what I can do.

Eran - October 13, 2026, 11:31 am

Bruh got me playing 1 hour without realising it! Nice job!

Final score: 49965. The bugs won this shift. Your personal best is 49965.

Any awards for this one?

xadamxk - October 13, 2026, 6:08 pm

Did you get bored working on convo? ?

No, just multi-tasking.

And Convo online. :)

Sometimes I just do weird side-stuff as I think of it.

I'm usually doing 3-4 things at a time.

Cute game. Addicting. Reminds me of the console games from childhood. Its been too long since playing games like this. Played like 10-15 mins

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
