Thread: [Looking for payment processors \(card\) for my site](#)

Goat - October 12, 2026, 10:38 pm

Just opened my online shop where I only accept crypto as we speak but I would like to integrate card at least.

If someone got stripe business or an payment processor for cards then hmu with ur %

Sales will be 120\$ each

Just adding to the thread, I'm looking for paypal business holders, and stripe or any other card payment processor.

You'll get 10% of each sale, no chargebacks, no refund no issues cause all are my own customers.

We sell legal digital products nothing illegal
