You may now buy one of the Octoberfest 2026 award for \$30.

<https://hackforums.net/buyawards.php>

But here's the rub. If you buy it BEFORE you earn it on the Award Goals page, you won't be able to also earn it.

You can get two of the award if you do this in the correct order.

- 1) Earn the Award Goal for October 2026.
- 2) Buy the Award.

Enjoy and thanks. :)

Last year was \$50 but that included 5k Bytes. This year it's 30 threads so I figured to go with \$30.

Award already exists for the user.

A lot of my big award purchases were custom requests.. Omni gave me a price and more often than not it is a fair price.

I see zero pumpkins. ?

DemonAsylum - October 13, 2026, 3:00 pm

A second red pumpkin? Don't mind if I do. Good deal as well. I expected this would be \$50 again like last year. I like how if you want 2, you have to earn the first one as well.

Charlie Sheen - October 13, 2026, 4:40 pm

I will definitely be purchasing this as soon as I knock out this award goal pumpkin. Which will hopefully be tonight. Will the sale remain up until the end of October?

Can't you clear cache on your browser?

The last time I did that, I ended up struggling to remember the password and recover my account, so I don't want to risk it again.

Fair enough. It's sick though. Can't wait to have it!

You swipe down from the top. Doesn't help, though.
