Thread: [Have you ever found something valuable in a place where you least expected it?](#)

Something funny happened to me today. I was going through some old clothes that I hadn't worn in a long time and found some money inside one of the pockets. ?

I honestly couldn't remember putting it there and I was actually planning to get rid of those clothes. It wasn't a huge amount, but hey, finding money you didn't even know you had is always a nice surprise. lol

Of course, I ended up checking the pockets of all my other old clothes just in case there was more hiding somewhere. ?

What about you? Have you ever found something valuable in a place you least expected?

Wow, that's an awesome find bro!

Imagine just doing some remodeling and discovering rare coins under the carpet. Were they worth anything? ?

Finding \$50 in the ocean is definitely something you don't experience every day. I wonder how it even ended up there!
