Thread: [What Is Your Biggest Goal Before 2027?](#)

Jinu - October 15, 2026, 10:24 am

With 2026 getting closer to its final months, I thought this would be a good time to ask everyone about their goals.

It doesn't have to be anything huge. Maybe you're learning a new skill, building a project, improving your finances, getting healthier, or trying to become more consistent with something.

Personally, I think the last few months of the year are a good opportunity to make some progress instead of waiting for January to start fresh.

What's the biggest thing you want to accomplish before 2027?

Let's see what everyone is working towards.

Getting a job, I've been applied for over a year, things starting to get better, but the job market is quite fucked up right now.

My main goal is to spend more quality time with my family.

Life gets busy, and I do not want to miss the little moments.
