It's about to be dinner time for me. So, what's for dinner? I'm having a steak & cheese grinder. Peppers and hot sauce. Good cheat meal.

How about you?

A crisp (cheese and onion chips as the Americans call them) on some batch bread with ham and cheese.

Only over the flu, stomach cannot hack any proper nutrients

Can never go wrong with some RAMEENNNN NOOOOODLESS! Basically been eating ramen as dinner for the last 2 weeks, which ramen alone is not the best so I usually add some type of cut up meat with some eggs and lettuce.. ITS GAAS and cheap!

Tonight's dinner was black beans, a little bit of quesillo (Oaxaca cheese), a few tortillas, and a small ball of spicy red chorizo. It was actually pretty good, to be honest :3

Today probably nothing because I had a pretty big lunch and I dont want to eat too much and gain weight again. Currently on such a good journey for weight loss :)

Redbull and whatever the rave is giving out.

I've been thinking about having some grilled salmon with veggies tonight. It's a bit healthier than the steak, but it sounds nice too.

Potatoes and chicken with rice... The food was nice, and being extremely hungry made it even better.
