Spam Calls Are Driving Me Crazy,
Found A Free Android App Worth Sharing

Anyone Else Getting Spam Calls All Day?

You Probably Know Exactly What I'm Talking About. Your Phone Rings All Day, Random Landline Numbers, Unknown Callers, And Whatever Else. You Block One Number And Another One Appears Five Minutes Later. It's Ridiculous.

I Stumbled Across This Android App

I Came Across Call Blocker On Google Play, And Maybe A Lot Of You Already Know It, Or Have Been Using Something Similar For Years. I'm Probably Late To The Party Here, ?

I've Been Using The Free Version And, Honestly, It Works Perfectly For What I Need. It's Simple, Does The Job, And Doesn't Make Me Feel Like I Need A Whole Technical Manual Just To Block Annoying Calls.

App Link: <https://play.google.com/store/apps/details?id=call.blacklist.blocker>

Supporting Projects That Deserve It?

I Might Actually Buy The PRO Version, Not Because I Desperately Need More Features Right Now, But Just To Support The Project. If Someone Builds Something useful And It Makes Your Day A Little Less Annoying, I Think That's Worth Something.

Of Course, There Are Probably Other Apps That Do The Same Thing, Maybe Even Better Ones.

What Are You Guys Using To Block Spam Calls On Android? Especially In EUROPE, Where These Calls Seem Never-Ending. I'm Curious If Anyone Has Found Something Even Better.
