Thread: [Whats your plan in 2027?](#)

Key - October 17, 2026, 7:37 am

As 2026 comes to a close, we look forward to stepping into 2027.

2026 was really upside down for me, and hopefully 2027 will be a better year.

My plan for 2027 is just to make more money, gain more achievements in life, travel more! and spend more time with family & friends.

I really wish that next year will be better for all of us. hopefully we all achieve of what we chase.

Continue working, saving up my money, and continue progressing my career skills.

Keep building the project I started this year and make it fully sustainable, then travel more. Less screen time would be nice too, but let's be honest, that's not happening.

My plan for 2027 mirrors yours. Making more money and spending more time with loved ones. I also aim to volunteer more and learn a new language.

Planning on expanding the projects that I have to give them more visibility, to travel a lot more and learn languages

Yeah 2026 was not the best. Hopefully 2027 will be better.

I want to make better decisions and focus on what truly matters.

I also hope to spend more time exploring new places with my loved ones.

Hopefully go off grid.. wanting to just train hop and camp out on buildings or something.. I don't like the thought of being held down in one area.

I have no plans... I honestly don't have a clue wait I'm gonna do.

If you are not progressing in life then what is the point, right?

Switch from full time to part time work so I can focus on my mental health.
