Thread: [Dropper / Downloader | Silent | Builder | FUD](#)

byxif - October 18, 2026, 2:08 am

A program that downloads another program in the background using a secure method.
You can apply it to any .EXE from URL(FTP)

Actual Builder version - 1.5
Actual Download System - 1.0
Windows 10, 11 - positive function.
Build is FUD (Full Undetected)

Builder is Clean Code

Stable Download Method (also FUD + silent)

Unlimited Builder - Auto Build

Build Silent Run on Windows (background)

Build launches (autorun) associated/downloaded .EXE

Bypass UAC (100% no trigger)

Bypass SmartScreen (80% no trigger)

Bypass Defender (90% no trigger)

Bypass AntiViruses (guarantee 90%+ no detect)

No need Admin run (include Builder & Build)

Build is very small file (120kb)

Created Build Trust Scan: <https://antiscan.me/scans/f4eb36ab-393e-481b-99ac-640ab4041900>

Builder Trust Scan: <https://antiscan.me/scans/5665137c-baf5-4641-bf29-e0e06b055cd3>

Builder stable price: 49.90 USD (Unlimited builds)
Builder for first customers: only 39.90 USD (Unlimited builds + Discount)
Build from me: 14.90 USD (one stable build)

Im not sell super duper GUI with weak code. Im sell stable function and unique code.

Pay method: Bitcoin, Ethereum, (PayPal? - contact me)

This program not have a autobuy.
Trade via PM/Contract only. (I will check your profile.)

TERMS: Distribution prohibited. Publication prohibited. Study purpose. No Refund. No upload to VirusTotal.
