Thread: [Sunday Funday](#)

Happy Sunday ya'll.

Almost time to get back to the weekly grind...

Today is the one day I try to at least stay off digital platforms a bit to give my eyes a break. Going to carve a few pumpkins later today and then really just get ready for the week. What is everyone else doing on this Sunday Funday?

That's a good thing to stay off screens a day per week, I should do the same as I spend most of my day on my computer

This morning I went to the bakery and market to buy my breakfast, I've made a thread about it : <https://hackforums.net/showthread.php?tid=6334135>

Now I'm playing Minecraft, building a dark fantasy castle, watching the news because of the riots that happened yesterday and continuing today in France. I'll try to clean up my house a little bit before going back to work Tuesday

Minecraft was super popular ~10 years ago. I still own the game just never played it much anymore.

Rocket League I'm like level 25. But I usually play casual mode. Just for fun.
