Thread: [Looking for a crypter compatible with PureRAT](#)

admfk1039 - October 21, 2026, 2:02 am

Looking for encryption software capable of encrypting PureRAT. If you have one, please contact me on Telegram: @DustinHodge_091

I've encountered far too many scammers—please, no more scammers reaching out to me... thanks.

Not all crypter sellers are scammers. AV detection gets better all the time, and formerly FUD crypters can be defeated without the seller knowing.
