Thread: [\[C#\] Serialize image and send it with a TcpClient \[Example-Source\]](#)

Charny - August 25, 2010, 1:11 pm

This example shows how to serialize an image, send it with a TcpClient, receive it on the server, deserialize it and shows it in a PictureBox.

Thanks for the cool example. I will definitely follow this closely. Very cool.

Ble\$\$eD - August 25, 2010, 1:23 pm

Nice share, coders need to realize how powerful and easy serialization can be Thanks.

PurpleHaze - August 25, 2010, 2:06 pm

This is great.

I got confused with your last example on this because of the extra class you created, but this example here is absolutely perfect.

Chiko - August 25, 2010, 3:15 pm

thank you bro awesome and thanks for sharing

Charny - August 25, 2010, 3:38 pm

Thanks for the comments !

DarkSeven46 - August 25, 2010, 4:12 pm

This is very useful, thanks. It works fine.

`Jacob - August 25, 2010, 4:28 pm

Thanks for the share man. May be needing this in the future.

MrZander - August 25, 2010, 4:55 pm

Can someone lead me to a tutorial or explain exactly what serialization is and is useful for?
I tried searching, couldn't find any topics with serialize in the title... which makes no sense...
