Thread: [.Net Reflector > Soucre?](#)

?D?vi??c?t?TM - August 28, 2010, 2:36 am

I can see the soucre but I was thinking instead of coppying all the codes isn't there a way to turn it directly into a .sln?

SumSumBee - August 28, 2010, 2:37 am

Yes. Right click the .exe and click on Export.

DOne.

Hey dude, you use .NET Reflector to see the source.

Gimme a sec and I'll get you a program that finds the "scoure" OK ?

Sure I'm waiting ;)

I need the scoure badly ;(

I dont know if your trolling but its pronounced "Source"

Snarr - August 28, 2010, 9:24 am

I laughed. I don't think he's trolling.
