yeah avast is pretty good... its shields are useful, but can get extremely annoying while hacking.

Undefined - August 31, 2010, 3:48 pm

oops lol i think ibruteforce already made a tread about this if im not mistaken please search before you make a thread :)

I'm using windows 10 its very nice and fast windows and still, I didn't download another antivirus because windows 10 defender its very useful for me its very easy and free its never give any problem. For my suggestion windows defender its good free antivirus.

Avast used to fuck up my computer sound in those grim post 2000 days. In general had very much trouble with it. I tend to use AVG due to its high detection rate.

Malwarebytes is good for the free trial ;)

Venomdez - February 12, 2017, 12:55 pm

wow thank you i been trying to find decent anti virus programs

StJonny - February 13, 2017, 12:32 am

honestly just get ESETNOD32 its amazing

Dekkoo84 - March 17, 2017, 10:40 am

Does anyone wanna be friends? Add me

artemisiv - March 30, 2024, 12:23 am

Malwarebytes is so good for the price

Al63r1ch - April 16, 2024, 3:45 pm

I'm missing Bitdefender in the list. But my favorite AV is no AV.

Guns3524 - April 21, 2024, 12:00 pm

the best antivirus is eset security or malwarebytes. the antiviruses you provided only burden your computer and protect almost nothing

Shawk - April 21, 2024, 12:01 pm

thank you for the information

HofmanolD11 - May 21, 2024, 4:24 am

TYSMB!, Really cool versions!

Skidsuper - May 21, 2024, 5:05 pm

This post is from 2010. Like what?

anonymous.123 - May 22, 2024, 12:23 pm

thanks works really go for me

AC070 - May 29, 2024, 6:31 pm

The best anti virus is common sense. Don't rely on any anti virus too much

Zellow - September 6, 2024, 8:44 pm

what about bitdefender
