Project HQ Era

Welcome, to a service thread provided by PHQE [Project High Quality Era] In this thread, I will be offering to set up HTTP botnets for all who are interested. Botnets available for setup are; Warbot
Noise

Any others that you provide (As long as they comply to the HF rules, and you know for sure work).

NOTE: I do not set up Strike, as most versions are backdoored.

I will set the bot up for you via Teamviewer, and show you step by step how to do it for yourself. I will also cover briefly how you can get your bot crypted, and good spreading techniques.

Cost: 2\$

All proceeds go towards Hackforums, whether it be donating, or buying upgrades for members.

If you want one setup, you can reach me at: istake@hotmail.com, or by Hackforums PM.

List of users that you can PM to have help with starting HF, and being high quality. ([Click to View](#))
Please do NOT PM any of these members with hacking request. We will help you understand HF and how to fit in, but everything else is up to you

Vouch for this guy. All the money is going to me, the leader of Project HQ era then being donated.

Androctonus - September 6, 2010, 6:50 pm

I vouch as well. This is a great price for this service, and the money is flowing straight back into our community. :)

Dykerosoft - September 6, 2010, 6:55 pm

This is an awesome price for this service. Also, all money from this is being donated to Hackforums and its users.

I would be able to Install NOISE Bot aswell, so if you got customers for that, you may forward them to me :)

Doesn't this thread belong to service offerings or sellers section? :|

Kotei - September 6, 2010, 7:25 pm

Absolute vouch for Rhythm. He is a great and legit member.

The price actually is really good :O

Rhythm - September 7, 2010, 5:47 pm

Bump, this really is a good price guys, best on HF atm, and all proceeds go back to the community.

Robbie - September 7, 2010, 6:37 pm

I hope we can get some nice money to donate :/

Rhythm - September 11, 2010, 11:23 am

Bump, setup for one person so far.

Robbie - September 11, 2010, 12:34 pm

How did the first person like this service?

?D?vi??c?t?™ - September 14, 2010, 12:33 pm

Very fast and very nice guy even let me look @ teamviewer so..

5/5 for that

Then the help you get and the advice is also very gread so..

5/5 for that again

Hmm and still overall nice guy. And legit! and the best part he's cheap! *I mean the service not him ofc..

So the total of this project is 5.5/5 (Yes I failure @ maths and grammar :D)

Devianceth, Take this serious this ain't a joke ;o
