Thread: [\[3/5\] libexif EXIF Information Integer Overflow Vulnerability](#)

Omniscient - June 14, 2007, 2:22 am

A vulnerability has been reported in libexif, which can be exploited by malicious people to cause a DoS (Denial of Service) and potentially compromise an application using the library.

Be sure to check if your system is missing security updates or have insecure applications installed:
http://secunia.com/software_inspector/

Feature Overview - The Secunia Software Inspector:

- Detects insecure versions of applications installed

- Verifies that all Microsoft patches are applied

- Assists you in updating your system and applications

- Runs through your browser. No installation or download is required.

Bumping a 4 year old thread? ? Why?

Vipe® - November 29, 2011, 11:46 am

Because it's 666 in the ID. :)

That's why it's alot ed...
