I don't have any exact one, I have an entire directory full of the signatures:

<http://t0uch.me/signatures/>

Using

<http://t0uch.me/x.php> to display them randomly.

Please stop posting. Everyone single one of your sigs makes me want to quit making graphics. Too good to choose. Except that Ak47 one and the first snowboard one is over sharpened.

First pic is best, 3rd one I think is kind of strange.. I'm not into anime sigs..

But anyways I rate first 8/10.

Yeah I don't like the 3rd one, it's sort of crap.

Lith - September 10, 2010, 2:33 pm

Added some previews and there's a Toonami PSD I have in there, though I did crap on it.
