try to share the pc's in local area.. by making a folder and sharing it...

i don't know if this is what you mean...

medicoroshan - September 11, 2010, 11:49 pm

yeah man...i know that....but i need a bigger data storage like about 10,000 gb of hard disk n transfer though wifi or wi max or lan which ever is possible....so if u can help me please do.

Ryuujinx - September 12, 2010, 4:38 am

10TB is gonna run a bit of cash. Probably around a grand or so.

But set it all up in a PC and set up a samba share/windows share on it.
