Thread: [\[4/5\] LiveData Protocol Server WSDL Request Buffer Overflow](#)

Omniscient - May 3, 2007, 2:25 am

A vulnerability has been reported in LiveData Protocol Server, which can be exploited by malicious people to cause a DoS (Denial of Service) or to potentially compromise a vulnerable system.

Be sure to check if your system is missing security updates or have insecure applications installed:
http://secunia.com/software_inspector/

Feature Overview - The Secunia Software Inspector:

- Detects insecure versions of applications installed

- Verifies that all Microsoft patches are applied

- Assists you in updating your system and applications

- Runs through your browser. No installation or download is required.
