Thread: [\[C#\]\[source\]pr0t0typ3 Encryptions rewrite+simple GUI](#)

TurokPD - September 14, 2010, 10:20 am

Hey guys,

as I am not using vb.net, I had rewrite pr0t0typ3's encryptions to C# for my own usage. I made a single library (class), so I can just reference it in any project in the future. So maybe it could be handy for another C# coders. I also attached a single GUI to the functions, it works similar like the online crypto encryptions. .net 4.0 is needed for this to use, as I am using default parameters, which are new to C# (introduced in 4.0).

Some of crypto.com encryptions are missing (all those based on bit arithmetics), because they are little bit buggy and I don't have the sources, so I have to wait till pr0t0typ3 corrects them. Will add them into my library afterwards.

GUI

Download:

<http://www.mediafire.com/?hwdwkvw359rre0y>

Credits:

all the credits goes to pr0t0typ3, as he released the sources of the functions, I just rewrote it into a more fashionable class library for easier project input in C#

PS: this library was made for my usage, so nor the functions, nor the GUI isn't full error proof, I just assume you know what you are doing. Any constructive criticism is welcome

pr0t0typ3 - September 14, 2010, 10:27 am

Thanks for the Credits.. I like to see that my functions are usefull for some members

no1me - September 14, 2010, 10:44 am

you have to fix the space %20 problem
when crypting

TurokPD - September 14, 2010, 10:46 am

will look at it, thx for pointing it out

Asus - September 14, 2010, 10:46 am

Nice release mate, its plain and simple layout.

4C42376F6E6C69314A434668 if you did. you answer me need something i can any for you. thanks
i wait pm ?

protocol - April 19, 2011, 9:56 am

the link is not working mate

Doctor07 - April 19, 2011, 9:57 am

This looks very nice dude, good share ?

besimbicer - April 19, 2011, 10:09 am

link removed

any reuploading?

Programmer101 - April 19, 2011, 12:24 pm

the download link does not work will send me a new or the files
thankyou

besimbicer - April 19, 2011, 2:27 pm

sorry for update

how to give me link ..
