????s? - September 15, 2010, 9:34 pm

Please go to <https://hackforums.net/showthread.php?tid=682650> to vote on who you think deserves the upgrade.

??? Uber/Leet Giveaway ???

I will be buying ONE Member on HackForums Leet or Uber. If you are Leet you will get Uber and if you are a Regular Member, you will get Leet.

To be the member I buy leet/Uber for just post in this thread telling why you deserve Uber/Leet, It can be short or long, I will read everyone's Post and decide who I think should get the leet/Uber giveaway. If you win an Uber upgrade, you must be accepted by Omni first.

I just bought Uber today for myself and I thought why not buy someone Uber as my way of giving back even more. ?

Get to posting Guys/Gals.

In the morning, I will put up a poll on this thread with 5 members who I think deserve this giveaway. And the community will vote on this. So keep posting and you may be one of those 5.

xbon - September 15, 2010, 9:36 pm

I think you should buy me leet, because I'm totally 1337... rite?... actually, I really don't know why I posted here, I know I can't think of a good reason to be leet, so yah, you should totally buy me leet anyways.

I deserve "L33T" Because It shows more respect than an average member and builds trust between members around the site. For an example lets say I file a scam report and then another Uber or 1337 will come and say that this is "Bullshit gtfo troll" When I'm doing something honest. Also taking in position of L33T will let other members trust me. For An Example, Lets say I post a link to xrumer but people think its infected. I would show them proof and scans and make it legit as possible and

clean for them to download. I want to do giveaways and contests but people wouldn't enter because they would think its fake.

Thanks Enjoy! Luv u all :D

Effexion - September 15, 2010, 9:46 pm

I feel I deserve Leet, I have wrote a few tutorials, and always try to help new members. Plus I always join these and never win so please surprise me lol. I have no paypal/bank account so without the help of some kind sir/madam, I'll never get it :(plus learning C# and I'm going to be posting some "different" programmes up in the not so far future.

Who ever gets it. Nice one for giving people this chance.

If you tried hard enough, you could become Trusted without having leet or Uber. Just because your leet doesn't mean you are trusted, just means you donated. You have to prove your trusted, and make yourself known amongst the HackForum's community. Leet and Uber doesn't mean anything at all when it comes to being Trusted, because a Uber member can infect you just like a regular member can, maybe even easier because you so called "Trust them because they are Uber"

Sorry for the lecture, but had to put an understanding to leet and Uber.

I would like leet because

- 1) It looks awesome
- 2) More respect among the forum
- 3) this will be my 100th post?
- 4) Your dang sexy!
- 5) I want to donate heaps to the VIP section :))
- 6) I have contributed porn passwords to the community

If you buy me l33t I will never forget your kindness.

I think i deserve ub3r because I have been spending a lot of time helping members with IRC and IRC botnet's for free recently. The past 3 days I have been up until 7AM doing this. I don't have many posts but the ones i have are HQ and i never flame new people who might not know what they are talking about and try my best to help them. I have sold a few things here on hf and have never scammed anyone even though I have been scammed over 8 times myself. I have already been approved by omni but haven't got the money to upgrade :(If you buy me ub3r I will put you in my signature for as long as I am on Hackforums!

PLEASE BUY ME UB3R <33

I would really enjoy having Ub3r so I could have more respect on HF and for people not to think low of me. I really love to help others. I just joined in the beginning of August so I won't lie, I am a smith. All in all, I will help whenever I am needed and I will do what I can. That is why I believe I should have Ub3r. Thank you very much!

Ub3r isn't all about respect, it's more along the lines that you've donated more to the site. Like stated above, you don't need to have l33t or ub3r status to be trusted, you just need a good reputation, and to help the community out wherever you can.

Donkey - September 15, 2010, 9:54 pm

I believe that i am worthy of Ub3r because i am a member who is contributing and i go out of my way to help other members and devote my time to helping everyone despite their forum status or ability to rep. I have been a member at this site for a while now and have met many members who helped me out and i try to do the same to make the community better for the newcomers and

everyone else. With the benefit of ub3r i can extend my trust and become a more respected user so that i will have a better say and a better way of helping everyone i can, plus its fricken awesome :D (i was accepted months ago for ub3r by omni!)

I get \$100 a month allowance.

Ub3r costs \$18 and I need my money for food.

The other money goes for bills.

I don't think deserve L33t, I let other people to do it. I only think I'm a good member addicted to this forum and I let people which I helped or dealt with to appreciate that.
If anyone from those wants to vouch for me, just do it.
Thank you!

Paul - September 15, 2010, 9:59 pm

I think I deserve ub3r because I've been around the community for a while have contributed quite a lot. I always give away free stuff, to both regular members and my fellow l33ts/ub3rs. Becoming ub3r will only encourage me more to help out other members, and contribute even more. Thank you for reading, and good luck to all others!

Epic Smiley™ - September 15, 2010, 10:00 pm

Why I Deserve Ub3r: I've devoted so much time into this site in such little time. I've helped out so many people in the forums. I give away free stuff. I'll be giving away my Dark DDoSeR portal aswell when the site's back up. I just love this site and helping the people on it, never lasted this long on a forum of any type.

About Me: Chill, African American Sophmore in High School that likes to help out people. I love Cadillac's and most 80's model GM vehicles. I don't know much about hacking but I do buy alot of stuff here on HF. I own and HD PVR and used to make commentaries on my channel before it got falsely flagged(lost 28k subs; account was xVurze) so now I just go on HF if I'm on the net. I love smileys(like my name shows) and my favorite is the "Epic Smiley" which is the one in my avatar pic ?

Note: You'll likely not pick me for whatever reason but I figured why not try ?

\$100 a month is more than enough for one person in food, if you just go one month with slightly different items, buy only what is on sale, and such. I totally forgot to quote the reply in my post, didn't I?

I believe I deserve ub3r because, I believe I can give back to the community. As a ub3r I believe I can earn more creditability in order to sell and trade stuff and earn money so that I can give back to the community. It will also help me to get to know other members and hopefully group up and try to help other members. I basically believe as a ub3r I can help the community in some way. I'm trying my best to help the community.

Sorry but those are false beliefs. If that applied here on HF then why are most of the Scam Reports about Ub3rs scamming random members? I guess it's because they're so busy giving back to the community rather then the member they scammed? Sorry but had to reply to your ignorance ? now let the thread stay on topic ?

blazin6969 - September 15, 2010, 10:06 pm

I hope you can take me into your considerations when you are purchasing a ub3r for someone, I try to help more in the market place forums than anything. To be honest I am not much of a hacker, I am pretty good at SE. If you do consider me I would be grateful just for that thanks!

Why I deserve L33T

Well I know that I'm a new member to this community, I haven't been here long but I think I deserve L33T. I'm a kind and trusting person and I'm here to learn and share new things with this community. I love to contribute things and help others out and since I joined not long ago I've posted a few helpful threads, including a GiveAway!.

Most members that have seen my post/thread seem to think I'm a good person. I've posted in threads to try help out anyone in need if I knew how (I'm still learning things too :P).

I will continue to contribute and help members out the best I can, so that one day I can be a trusted and known/respected member of this community and I think becoming L33T would bring me a step closer to this.

Thanks, Peace!

0xDEAD10CC - September 15, 2010, 10:21 pm

I think I should get L33T because i'm a very respectable person around the forums. I do help lots of people all the time for no cost at all, I help others learning experience here at my own free will. You will find a lot of evidence of this if you look at my posts, and I help anyone out, whether they are UB3R, L33T, or just a regular user like me. I believe that the more I can give out to others as a learning experience, the more I will gain in return, and the more I will learn myself as a fellow member on hackforums because people will help me too, just as I can help them.

I could go on and on and make up a whole bunch of things for why I might deserve getting the upgrade, however, there isn't really much else to say. I come here to share my knowledge with others, and hope that they can give me some of the knowledge I don't have so that I can become more aware of the computer world.

If I had a L33T upgrade, I am a very thankful person for what others do for me, and that would motivate me to be a lot more active around the site, and help others as much as I can. Not much else I can say :) Whoever gets the upgrade though, surely deserves it.

Thanks for reviewing my post

Mendacious - September 15, 2010, 10:26 pm

I joined back in the early days of 09. I wanted to become better acquainted with the forum and several different members. I never wanted to become a "hacker" I always have been a "gamer". A month or two after my registration I created my very own crew "The Gamers".

I have the ability to post high quality whenever applicable. I have high quality posts along with grammar and punctuation. But this is really why I ultimately deserve the ub3r upgrade:

First of all I'd like to say I am a "HF Veteran" I have been on this forum for over a year now, soon to be two. I believe I am a high quality member and poster. Sure my post count isn't the highest especially for being on this forum for more than a year, but I only post when necessary or when I believe I have something constructive to add to the thread. I love to help members as you can see from my reputation. Unlike most members I have actually earned my reputation, I don't ask my pals to rep me nor give out free MSDN accounts hoping to get reputation. I may not be the most popular member nor the most active, seeing that I usually hang out in the crew area and the gaming section of the forums. I have achieved a lot in this one year period including creating and leading my own crew - The Gamers. Since ub3r has come out, I have been trying to get my hands on it, but to no avail, hopefully this week I may have another shot at obtaining ub3r membership. I have received not one negative reputation after being on this forum for over a year nor have I been banned or

limited. I am proud of what I have achieved with my time on this forum, I would love this opportunity to have ub3r membership.

Yes, thats a lot of writing, but I do believe I deserve the upgrade.

saintcj - September 15, 2010, 10:40 pm

I think I deserve l33t even though in myself or here in HF, I never contributed something but I'd like to experience what l33t benefits are, what is the feeling of being a l33t member. Because I believe that when I become a l33t member, I'll have more time to post here and think of many many ways to contribute as long as members likes what I post etc. I think I deserve l33t because I never got flamed and I think and think before I post something. So congrats to me if I win or to other members. Goodluck to all. :)

I Really really, really, really want LEET. This is mainly because i can't buy it from the country i live in. Secondly, i know i deserve to be LEET and not being looked down on when i do not have the LEET badge. Thirdly, I try my best to always help people in Hack Forums. I also have a website dedicated to helping people find files they cant find on there own, and this way i have helped a lot of hack forum members.

Proof : <http://www.irequest.weebly.com>

I am online on Hack Forums every single day and also have Great Web, Coding , Gaming hacking skills. Specialities are [Game console hacking and Websites Hacking]

So please, please, please buy me LEET.
I will be forever grateful.

Also people would respect me more and i will have more flexibility in Marketplace sub forum, buying and selling stuff. Hope you will consider. Thanx in advance.

Rishabh - September 15, 2010, 11:52 pm

I would like to have Leet as I think it will help me build trust with people here for my hosting for most

members here think that only L33TS and UB3RS can provide good, reliable hosting. The other reason for L33T is that I don't mess up with anyone or fuck them up, neither have I tried to scam anyone. The 3rd Reason - L33T is So cool :)

Mucius Scaevola - September 15, 2010, 11:58 pm

I think I should get the l33t since I am on the forums a lot and try to help people out with things. I also would like to get Ub3r and this will help me towards that task. That is why I believe I deserve l33t. Thanks :D

BluexXxKalishnikov - September 16, 2010, 12:36 am

I'm not going to give you reasons as to why I think I deserve l33t, but why I think I'm a good member.

If you check my posts you'll see they're mostly my attempts at helping members, and that I've not gone around flaming, nor asking stupid questions that can easily be solved, unless I've searched previously. If you look into my threads you'll see ones such as:

[Hacking and Cracking; What they are.](#)

[Hacking/cracking websites.](#)

[Read before starting threads. How to hack Facebook, MSN, MySpace, the works.](#)

I've not got many posts because I try to keep them down to helping other members in the Beginner Hacking section as much as I can. Lately I've been unable to come on here as often as I'd like, but I plan on trying to be around more. Omni's already approved me for Ub3r, but it'd be an amazing help if I could have l33t beforehand so maybe it'd be a little less costly. I don't have much money(don't worry, not some sob story lol) so it'll take me a long time to earn/make the ammount needed for member-to-ub3r since I try to stay away from black hat activities and such outside of causes I believe in(proud hacktivist :D). But you'll see I've tried my best to help others on this forum as much as I can, since it's helped me more than I can explain in one post. I see many users I'd love to be able to +rep, Omni being my first and n2h being second as I knew him on msn a while ago through a friend before he made staff here.

Even if you don't pick me for l33t, congratz on getting Ub3r :) And same for whoever you do buy l33t/ub3r for. I know many members do as well and better than me, and deserve it more. Thanks for sharing with us, it's appreciated.

EDIT: When you put a poll in the thread I think you should quote the posts of the members you've picked, and put them in the OP. That way people voting know why those users were 'nominated' in

the first place. Again, thank you.

I want the leet so badly :(

Grumpy - September 16, 2010, 1:43 am

I think that I deserve the l33t membership. I am always here, normally for at least 5-6 hours each day. Although I've only been on this forum for less than a month, I think that I've contributed well, made a decent amount of high quality posts, and am also in the process of making a few tutorials on ways to make money, basically an eBook but it will be totally 100% free. I would really like the l33t membership as there's also a few contests that I'd like to run, but I really don't want to run them being just a normal member, I know some have disagreed but there really is more trust between people when you have an upgraded account, I know that just by looking around various threads on this forum. So yeah, I've written a nice, long speech about why I deserve the l33t membership, so please, add me to your poll and let the Hack Forums community decide! ?

zoh - September 16, 2010, 1:51 am

I think I deserve uber, because of many reasons. First of all, I have given alot to this community, from my tutorials as well as helpful threads. You can have a look at them here:

<https://hackforums.net/showthread.php?tid=475964>

<https://hackforums.net/showthread.php?tid=617288>

<https://hackforums.net/showthread.php?tid=438144>

<https://hackforums.net/showthread.php?tid=375511>

<https://hackforums.net/showthread.php?tid=336362>

If that doesn't satisfy you, I would just say, I have won 2 uber contests, but for some reason, both of them had some paypal issues, therefore my upgrade couldn't be completed. I would love to be nominated in this contest, and hopefully you don't get limited by paypal. (jk xD)

Lastly, I have been a devoted member here, and its been 6 months since I joined. I would love the upgrade, as an appreciation for my hard work, and help given to the community. :D

hahaha.lol - September 16, 2010, 2:15 am

I would love to get a LEET because...

- 1)It has its own respect in the community
- 2)It has its own forum...where almost everything is available first
- 3)I am such in a inferiority complex when I ask for help and no body helps me because I am a regular member.
- 4)I am looking forward to do a RAT setup service offering..which is quite appreciative.
- 5)I want to change my User name ...It looks too gay!
- 6)I would be thankful to you all my life...!!

I want to be l33t because I have contributed enough to the Hack Forums community with my Graphic Requests and Tutorials. (You can check that in my threads) I know I ain't along time member, but I deserve HF L33t. Also I got a lot of Reported Posts, Posts and reputation.

(Reputation doesn't count BTW) I am 18 almost 19 years old as well, I am old enough and I have the responsibility and I got a good Grammar. I also want to have L33t because it looks great. I can add reputation, delete my post, edit my post more than 1500 error and a whole other stuff. I also need L33t because I want to contribute more to the Hack Forums community. Hope I really win L33t. Thanks for reading my post and request, hope I win and also good luck to other they to win.

I have recently started a graphics request thread with happer and as soon as we got some money, our paypal has been locked >.<

So at the moment i cannot afford to buy it myself,

I have already been accepted by omni

Thanks for reading and i hope i get chosen

Good luck to everyone :D

I want to be Leet : My Reasons to get Leet Status.

- I respect Everyone on HF.
- I judge People on their Real Identity and Helpfulness Basis.
- I don't have money to buy leet/uber for myself.
- I Help Everyone, Ask Liquid3, Poppins and Shades.
- I Gave Free premium Ebooks to HF to normal + leet/uber members.

I think i deserve l33t , coz I really Like to help out members here at HF whether it may be noob or Ub3r...even you can check my simple signature, posts ,etc. I spent much of my time here, I dont flame or troll anyone, my any post isn't reported yet.. I would like to explore the VIP section of HF & would like to help them ,Sometimes i want to thank members that help me & HF, by +rep'ing them but i'm unable coz i ain't l33t yet lol....even in my exams I don't get into my books ..rather i gather information from HF tutorials,I'll not say that i ain't got money..but I'll say "I want to earn everything through my knowledge and nature(helpful & calm)"...

I don't know about deserving, but I would like to have it please.. I have done what I can to help on this forum.. Mostly in the graphics section because that is what I have to offer.. I am also in the gamers group. I have tried to do what I can to fit in here and help out. I have followed the rules and just posted resources. The more I learn, the more I will be able to share.. Thank you for any consideration.

The reason why you should buy me Leet is nothing special, I just want it and I hope you feel that I deserve it! ?

Average Skid - September 16, 2010, 5:10 pm

I think you should buy me the leet upgrade because I have been around the community for a short while now and not done anything wrong. I have tried my best to answer questions that I have knowledge about and also like to have open discussions with other members. So far I have never received a bad rep as I have tried my hardest to participate in good things not bad.

At the moment with a new year of college and the fact that I don't have a job currently (although am looking) I can't afford to buy my-self leet so hopefully I may be chosen.

Thanks for reading my post.

Hello Reverse I came to your thread, just asking for your support with gifting me ub3r.

It has been a while (not so long) that I have joined Hackforums.

The thing that I can say is that this community has evolved and became one of the most precious forums with hacking involved.

I'm a member that doesn't spam or make fun of others.

When someone needs me, I am here to help them.

When I have time, I help members with their relationship problems, or when they are depressed I talk to them to resolve their issues.

If you need help with anything, PM me if you need it.

Thanks for the opportunity and good luck to all :D

0xDEAD10CC - September 16, 2010, 5:18 pm

relationship problems? lol I haven't seen that here, but now i'm informed.. I just help people in general with graphics, website coding, etc.

Arnav - September 16, 2010, 5:21 pm

I want to be leet member because then I can help out people making Botnets and RATs.

I would offer free Crypting and help make them for people. I would be nice and helpful, posting useful information. I would also give you a Ub3r Hug.

Thanks to all who entered to win Uber/Leet

I am reading through all of the posts, and I will pick 5 members and enter them into a poll for the community to vote on.

I have picked 8 instead of 5 members.

I will make the other thread now.

Kaiser - September 16, 2010, 8:40 pm

I deserve leet because paypal is not supported in my country :/ and I've given to the community and really would like to experience being an upgraded member

Thank you in advance

Killtacular™ - September 16, 2010, 8:54 pm

Hey,

I joined here at around May and I know I am not a veteran but I think that I should get ub3r is cause I think i have given a lot to this community. If you want to look at some of my threads, I have conducted several giveaways, shopping deals and several tutorials for this forum. I have been inactive these past few days but if I get ub3r, I will do better to stay active on this forum.. and yea.

So thanks for holding this contest and I wish everybody the best of luck ?
